DO YOUR OWN RESEARCH LITE-PAPER

MISSION STATEMENT

Our mission is to stop the scams with education. The DYOR Token community strives to teach investors how to find reputable crypto projects while avoiding honeypots and rugpulls. Our community is driven by people that were scammed. We work to **ensure** it doesn't happen to any other investor.

PURPOSE

DYOR's purpose is to bring education to the average investor in the crypto currency community. With how simple and easy it is to design your own crypto coin and/or token, there are a lot of new investors falling into scams and fraudulent projects. We don't want investors losing hundreds, thousands, even hundreds of thousands of dollars anymore and we want to provide educational material that any investor can understand and a community that is driven to assist people in not falling to "rugpulls", "honeypots", or any other scam.

HOW DYOR PLANS TO BRING EDUCATION TO EVERYONE

Our team has a free education page on our website. Our free education page uses tools anyone that has access to the internet can use. The tools being provided are simple tools that anyone can learn and should learn. In the future we would like to create a dedicated team to vetting new projects and contracts provided by either the community or the contract creators.

"Sharing knowledge is not about giving people something, or getting something from them. That is only valid for information sharing. Sharing knowledge occurs when people are genuinely interested in helping one another develop new capacities for action; it is about creating learning processes."

Peter Senge

DYOR'S UTILITY

We will be providing services in multiple tiers for new projects such as a free quick look over to see if there is any immediate red flags to having our personal team of experts dissect their contract at the cost of DYOR Tokens. We strive on wanting to make the crypto community a safer place for EVERYONE no matter if you're one of the largest whales in Bitcoin down to the smallest wallet in Safemoon. Also our team will continue to AirDrop the victims of "rugpulls" and "honeypots" to not only give a little something back to them but to let them know they are not alone.

OUR ROAD MAP

Phase 1

- Launch Website (done)
- Apply for TW Logo (TW doubled requirements, in work)
- Submit application to coin gecko (done)
- LitePaper (done)
- WhitePaper (in work)
- Set up DYOR Vetting Team
- Social Media (more to come)

OUR FUTURE

- Increase Holders, Hold Education workshops, and Perform Vetting scam projects
- In Q4 it would be our pleasure to hold education workshops to further educate our community. Also we would like to multiply our holders 5x our Q3 projection of 5,000.
- With Growth Brings Listings
- It would be in our greatest interest to keep expanding to other exchanges allowing more investors the opportunity to see our project and also learn tips and tricks so they won't fall to scams.
- Burn Burn Burn!
- Q2 of 2022, the burn wallet is projected to contain 30% of ALL tokens in circulation.

FUTURE PROJECTS

Scam Relief Program

Our objective is not only to educate but also try to give a little back to victims of scams. We will continue to AirDrop DYOR Tokens to victims of scams and have an application section where scammed individuals can send in reports and we review their reports and publish a report on it so no one else will fall victim to the scam.
